3" x 10'	150 pcs per unit
3" x 12'	150 pcs per unit

Grow your business with quality and environmentally friendly wood products.

Choose from either natural wood or pressure preserved.

TruStakes are your blue ribbon choice for straight, reliable and durable performance. They stand up through years of four seasons—sun, wind, rain, sleet and snow. They guarantee to support your growing investments.

Our products are produced with long standing, small knotted Western Woods from the great Northwest. TruStakes are pre-selected, prior to being pressure preserved, to provide a product that matches or exceeds your expectations for stability.

Blue Ribbon Wood Shield ACQ is a new generation wood preservative that extends the life of our TruStakes. It is a water-based environmentally friendly preservative that provides protection from rot, decay and termite attack. Wood Shield is the winner of the US EPA Presidential Green Chemistry Award.

Specify TruStakes ... a growing investment.
